Saurashtra University

PROJECTS   vivekmalaviya

Tradesmint - *Trading Course selling Site*   ASP.NET - C#

Tradesmint is a Web Application which made in ASP.NET Core. I have created this project with my partner Devang Khuman as a subject for the 6th semester. This system manages to buy and sell trading related courses.

Park.Me - Parking Management System   PHP - MYSQL

I have created this project with my partner Devang Khuman a Parking Management System named Park.Me for 5th semester project. Park.Me is useful for the user to find perfect parking spot where user can reserve parking before going to there. this project is come with three view admin, user and operator.

Taskeee - Task Manager Web Application   JS

Taskeee is a task management web application developed as a collaborative project with my partner Sendhav Vishal L. for our minor project. The application is designed to help users effectively organize and manage their tasks by allowing them to create, update, delete, and categorize tasks. With a user-friendly front-end interface built using React, HTML, CSS, and JavaScript, Taskeee ensures an intuitive and seamless experience. The application includes features like user authentication for secure access and real-time updates for efficient task tracking, making it a valuable tool for personal productivity and project management.

SKILLS
